--------------------------------------	--	----------------------------------	---

The PCB-MET-200 is a versatile electric examination table for general medical practice. Motorized table-top elevation via hand remote provides precise height adjustment. The gas-spring back plate offers strong, smooth recline. Seat plate, auxiliary plate (with built-in waste basin), and foot pedal are manually adjustable for fast positioning between patients.

— Articulated positioning & controls

MULTI-CONTROL ADJUSTMENT

Electric + manual hybrid

- Electric: tabletop height (460–850 mm)
