---	---	--	---

The PCB-OET-400 combines flexibility and reliability for obstetric, gynecological and examination procedures. Dual-control electric operation lets clinicians position the table without breaking sterility. The 304 stainless-steel base and column resist corrosion and tolerate aggressive cleaning protocols.

— Articulated positioning

MULTI-SECTION ADJUSTMENT

Quiet, motorized articulation

- Seat plate up ≥20° / down ≥9°
- Back plate up ≥45° / down ≥10°
- Leg plate outward ≥90°
- Tabletop elevation controlled by premium electric motors
- Low minimum height (≤680 mm) for easier patient transfer

— Key features

<p>Dual control</p> <p>Micro-touch hand remote plus foot switch — choose the input that fits the procedure and the moment.</p>	<p>304 stainless steel</p> <p>Base and column resistant to corrosion. Easy to disinfect. Built to last.</p>	<p>Customizable mattress</p> <p>Seamless mattress in multiple colors. Easy to remove for sterilization.</p>

— Specifications

Model	OET-400	Tabletop length	≥ 1,880 mm
Tabletop width	600 mm	Tabletop lowest height	≤ 680 mm
Elevation range	≥ 260 mm	Seat plate up / down	≥ 20° / ≥ 9°
Back plate up / down	≥ 45° / ≥ 10°	Leg plate outward	≥ 90°
Base & column material	304 stainless steel	Control system	Hand remote + foot switch
Motor	Premium electric motors	Mattress	Seamless, multiple colors

Manufactured under International Quality Standards. Designed and manufactured following international standards for medical device quality management. Every PCB-OET-400 unit is tested before shipment.
